Update 66 of TCEQ Air Section Activities - 4/4/2019 1400 through 2200 Hours

All,

Attached are handheld monitoring field data sheets of the air monitoring conducted by TCEQ investigators from April 4, 2019 at 1400 hours to 2200 hours. No air monitoring readings above the action levels identified by unified command were detected during the air monitoring surveys. The only odors detected during the surveys appeared to be unrelated. Light to very light outdoor burn odors were detected at Barrett Elementary School (29.880443, -95.048904) at 1709-1730 hours.

The Air Section will provide the next update on April 5, 2019 at approximately 0700 hours with information from area surveys and monitoring conducted from the SWS contractors from April 4, 2019 at 1800 to April 5, 2019 ending at 0600 hours.

Regards,
Letasha
